

Principal's Message

'Unlimited Possibilities'

Our theme for 2017 is Unlimited Possibilities.

Change is the only constant and disruptions have become the new normal. For us at RGPS, we adopt an attitude of positive expectation, that with every change and disruption, unpleasant or inconvenient as it may be, there are opportunities for us to learn and grow. When all things settle, there is a new beauty, something beautiful will emerge if we keep our minds open and our hearts steady. And our young ladies will continue to thrive because they are Creative Thinkers, Lifelong Learners and Value-based Leaders.

Our young ladies are part of the Raffles legacy, a story that started in 1844 with just 6 boarders, very humble beginnings. Through the years we have progressed to a strong standing in the community, offering excellent holistic development to the students. And this is achieved because our predecessors have never been daunted by difficulties or challenges. They have always seen the world through possibilities yet undiscovered, untapped, and were driven by a desire for excellence, 'to make a better life for others' as in the school song. And our staff and girls will continue this rich heritage to always give our best in all that we do, to rise above circumstances, to care for others and to serve and lead.

So I invite you to join us on this journey of Unlimited Possibilities.
